

Privacy

The personal data collected is processed by SUSTAIN HARVESTS, in accordance with the regulations on the protection of personal data. It is intended for the Company and may be communicated to the companies in the group to which it belongs

(www.sustainharvests.com) and to its subcontractors or partners for the processing and purposes.

It may also be communicated to any authorized administrative or judicial authority or, more generally, to any authorized third party, in order to meet its legal or regulatory obligations. Information explaining why and how your data will be used, how long it will be kept and the rights you have, can be found in our information notice on the website www.sustainharvests.com, under the heading C.G.U. The respect of the personal data that you entrust to us when using this service is one of the most important rules in our eyes. On this service, no "Big data" or data collection concerning your private life, your preferences, your friends, etc. We simply collect the information necessary to manage this activity and to comply with the regulations in force.

To meet the needs of this site, we are required to collect some of your personal data such as your marital status or your address. This is indeed essential given the nature of the operations that are carried out on this site: financial transactions and the sending of the associated counterparties, if any. However, this information is stored in a secure area and is strictly for the use of SUSTAIN HARVESTS staff.

Displaying Your Information on the Site

This site gives you the opportunity to create a personal profile that allows you to interact with stakeholders, comment or share content. This "public" profile is entirely at your discretion. You have the option to put a picture of yourself or something you like. You can also choose to disclose your identity, use a pseudonym or remain anonymous.

Site usage statistics

Like many websites, we keep statistics on the use of the site and the number of visitors. The objective is simple: to improve the quality of the service by understanding what are the weak points in the navigation that is proposed. To do this, we use tools such as Google Analytics which allow us to collect mass navigation data (which are not nominative).

If you have any questions or comments about our privacy policy, please let us know : contact@sustainharvests.com
